**What does America do when it is conquered quietly, gently, no guns, no blood, no violence, just acquiesce?**

We do not know the answer. We think whatever happens next is a nightmare.

We do think the election will be determined by 25,000 to 40,000 votes in 6 swing states. About 125,000 in Pennsylvania.

We think there will be several times that number of ballots, in hand, in each state, voted, from ineligible addresses citizens can challenge.

YOU can help save our FREEDOM...

Step 2

**Donate NOW. Donate until it hurts, then donate more.  
...Fight! Fight! Fight!**

<https://www.stopbogusballots.com/donate>

We are in the final sprint to save our freedoms. I believe Jay Valentine and his team are the best chance we have of stopping the steal of the 2024 election. So, I urge you to donate NOW. Donate until it hurts, then donate more! Be a true Patriot!

The Declaration of Independence says that when a people is subjected to a long train of abuses aiming at absolute despotism, "it is their right, it is their duty," to change the government. This duty is higher than one's own personal survival or selfish interest. It may in fact require the sacrifice of one's own life. That is why the Declaration concludes with these noble words: **"We pledge to each other our lives, our fortunes, and our sacred honor."** Consider Frederick Douglass whose motto was "Better to die free than live as slaves."

John Hancock, Thomas Jefferson, John Adams, Benjamin Franklin and 52 other citizens of the colonies were willing to sacrifice everything.

**They risked everything. You only need to forgo a few bucks  
(as much as possible) ...and together we can succeed!**

"I find money some way or other goes very fast. But I think I can reflect it has been spent with satisfaction and to my own honour." - [John Hancock](#)

**Donate NOW. This is the time to step up in a BIG way.**

**The next President of the United States may well be chosen by mail-in ballots from Walmarts, gas stations, abandoned buildings, UPS locations, strip malls and churches with no bedrooms.** It's time to challenge bogus ballots, from ridiculous or ineligible addresses BEFORE the votes are counted - not litigate, and lose afterward - again. [Common Sense Elections](#), a group of attorneys, investigators, writers, entrepreneurs, former elected officials, high tech players - built a national platform to publish, on a day by day basis, the ineligible and absurd mail-in ballots - many from Leftist NGOs - interfering with the 2024 election. Their web site is: [StopBogusBallots.com](#) 2024 will be determined by dirty voter rolls tied to Leftist ballot mills - and Republican blindness. **The problem is the industrialization of mail-in ballots, tied to dirty voter rolls - generated by ballot mills - creating the overwhelming force that now determines every national election.** Republicans have no technology to find it.

National voter integrity orgs cannot and do not publish it - because they use obsolete relational technology which is blind to it. Ballots can be challenged because they came from an ineligible address - according to state law. The problem is nobody but quantum speed compute guys like us, and some very dedicated voter integrity teams can see it. Well, **it's your turn now.** Our team is providing some of the technology, with others providing their technology. Successful attorneys and the best street fighting investigator org in the field is active and engaged. They need your help to add more states - Michigan, Pennsylvania and others. It's not "too late." Every ballot from a BS address, in any swing state can be challenged now. 45 days is a lifetime at quantum speed. Time to get off the couch, quit emailing about what can be done, and donate to some terrific people doing great work for 2024. Every dollar counts - every donation is a donation toward stopping a bogus ballot from a bogus address - published BEFORE the election.
